Greendale has nurtured our son into a bright, smart and intellectual kid. It has been a great experience to see our son George, growing up with the best educational institution in the city. From his Kindergarten to Class 3, we have had some great success stories to share. George has been one of the class toppers, Gold medalist in the Olympiad, amateur swimmer, skater and budding robotics engineer! He has developed keen interest on space science and constantly amazes us with his science DIY exhibits from the knowledge he grabs from the school. All of this is only possible with the right guidance from the teachers and the good leadership of the school management specially under the guidance of our beloved Chairman Sir, Dr. S. P. Ravindra, who has a great vision for the school and the future of the Greendalers. We are very fortunate to find Greendale International school which transformed into one of the finest schools in the city.

Mrs. Hulda,

Site lead, HSBC, m/o George (Grade 3)

My son Dakshay joined the Greendale International School almost from the very beginning, right after the inauguration. And settled in from the moment he walked into the school premises. He loves his school. The faculty, admin staff and management are all highly capable and experienced in running an educational institution and taking it to heights of excellence. They focus on holistic all-round education. There are few schools like Greendale that can boast of a Skating Rink, a large Swimming Pool, Cricket & Basket ball grounds and an art village altogether. Beautiful school with a lot of greens. Overall very pleased with the school and highly recommend it!

M Tanuja, Center

Head, HSBC, m/o Dakshay (Grade 7)

As a mother as a wife, as a daughter I am always worried that my loved one's are been given best care and are in good and safe hands, mostly in two places that is in hospital and school. Six years with Greendale I don't remember being worried for even a single day. At an younger age learning should be fun and get scope and opportunity of learning as many activities as possible.

Greendale has got all that I thought to give to my child.

Mrs. Pushpa,

Home Maker, m/o Raunak (Grade 4b)

Greendale International School has such a wonderful and an excellent infrastructure and seemed lie to be a good balance maintained between academics, sports, games and cultural activities. Kids are encouraged to participate in various events conducted by the school.
